

Maze Runner User Manual

Game Description

Maze Runner is the adventure game of the 21 century. With the power of virtual reality, immerse yourself into a dangerous city and catacombs that are teeming with dragons in order to make it to make it to the sacred chalice.

Game Controls

- Look around by moving your head around with the HTC Vive headset on.
- Move around in game by holding down button 2 on the Vive controller and dragging the controller in space and then release the button. Think of using the controller in a motion analogous to using ski poles.
- Pick up items by touching the in game controller to an item and holding down button 7 on the vive controller. Keep the button held down to move the item around in space and drop the item by releasing the button.
